

STATEMENT OF PURPOSE

RS19334

To efficiently use the limited funds available for road construction and maintenance throughout Idaho, the Local Highway District Consolidation Act requires all highway jurisdictions within a county to be consolidated into one countywide highway district. Consolidation of highway jurisdictions will minimize administrative costs while maximizing funding available for critically needed road work.

Jobs: The impact on Idaho jobs will depend on the balance between administrative cost reductions and job gains associated with road construction and maintenance projects funded with any administrative cost savings.

FISCAL NOTE

State General Fund: None.
